

Sample Retail Benchmarks

Total Supermarket (Industry segment specific sample)

1. Average days of In-store inventory carried
2. Inventory turns
3. Average ratio of part-time to full-time associates
4. Average price changes per week
5. Average supply cost as a % to sales

For demonstration purposes (only) an estimate has been inserted into these graphs to display a sample client performance level. The benchmark data may not be applicable to all formats without refinement.
